

REPAIR SOCIETY

NAME

Welcome to **Repair Society: Ringvägen** 30 Sept. - 3 Oct.

What do You think Repair can mean to society? What would society look like if Repair had a central role in our lives? In our thinking and acting? How would an approach like this affect this local neighbourhood as well as the society at large?

Repair Society: Ringvägen is a temporary open research platform and workshop about Repair. The workshop will inquiry and discuss the notion of Repair from the very local perspective and in various ways bring forward issues and ideas that can help shaping visions for alternative future development, locally and in society at large. This will involve obvious issues such as material aspects of everyday life but also around immaterial social structures.

Come and join us! We invite you to come and visit us at FFAR (forum för arkitektur) at Ringvägen 141, and see what we are doing, let us know what you think, join us in our research or just talk with us about these and other related issues.

From Thursday to Saturday we'll be open with various activities such as talks, discussions, workshops and display of the ongoing work. And please **welcome** to contribute to the **Museum of Repair**, the **RepairShare** and the **Repair It Together** Workshop!

More information on the programme or how you may join us, please see other side of this invitation and our website www.edu.konstfack.se/organisingdiscourse

Repair Society: Ringvägen workshop is arranged within the Konstfack postgraduate program Organising Discourse and part of the on-going project Repair Society.

REPAIR SOCIETY

REPAIR SOCIETY

NAME

Museum of Repair, Wednesday - Saturday

a temporary museum that collects the repaired, instead of searching for the prepared

All the unique objects that managed to attain a new life through special processes, all the relationships that were renewed instead of disposed, all the things that weren't thrown away when broken. We admire the craft of repairing and we want to highlight knowledge and experience about it.

If You have something that has been repaired - an object, a photo or just a story that you would like to contribute with, come and speak to us, bring something to lend us, a photo, at text or send an e-mail.

Reparationsnätverket (Repair Share), onsdag - lördag

is collecting and connecting needs and knowledge about repair

We have all thoughts or wishes about what needs repair (or improvement) but also own skills, experience or knowledge about others who have. What if we could make new connections in-between?

If You have thoughts and ideas around this let us know, come and speak to us or send an e-mail.

Repair It Together workshop, Saturday 3 October, 12 - 16)

is where we meet to talk and repair together

Open for all, this workshop is thought of as a place to primarily meet and share thoughts and skills. Bring something to repair: a thing, a thought, anything broken or not really working, a problem, an opportunity or a skill, a tool, some material or just yourself. Fika to all participants.

Visit us at: FFAR, Ringvägen 141, Stockholm

Opening Hours: Thursday - Friday: 12 - 8PM
Saturday: 11 - 4Pm

Contact us on: repair-society@konstfack.se
